

ENVIRONMENTAL LEGISLATIVE COMPLIANCE AUDITOR COURSE

October 5 – 9, 2009, Sudbury, Ontario

About this event:

This customized training course has been developed by Stantec, with guidance from the Ontario Mining Association Environment Committee. The objective is to develop a pool of trained auditors, who are proficient in mining-specific environmental legislative compliance, enabling cross-auditing amongst OMA members.

This approach is intended to reduce auditing costs over the long term, develop the skills of mining operations' personnel, and enhance our ability to share knowledge and best management practices within the industry.

Recommended for:

Employees of OMA member companies responsible for developing and implementing the list of legal environmental requirements and assessing compliance with those requirements.

The course will cover:

- Fundamental Concepts, Principles, and Skills of Environmental Auditing
- Various Types of Auditing, Investigations, and Assessments
- Key Players in the Audit Process
- Audit Principles and Professional Ethics
- Mining-specific Environmental Legislation — Federal
- Mining-specific Environmental Legislation — Provincial
- Audit Program Design and Setting an Audit Schedule
- Developing and Using Audit Protocols
- The Basic Audit Process
- Preparation and Planning
- On-Site Activities
- Post-Audit Activities
- Auditors' Personal Attributes and Skills
- Sources of Environmental and Other Relevant Auditing Standards and Guidelines

You will:

- Learn through a combination of classroom instruction, group discussion and practical workshops;
- Put your learning into practice through a mock audit at a local mine site;
- Verify your knowledge retention through a written examination;
- Come away with a toolbox of resources that includes an Ontario mining-specific audit protocol.

Basic schedule:

| October 5, 2009 | October 6, 2009 | October 7, 2009 | October 8, 2009 | October 9, 2009 |
