About the Workshop

The OMA Energy Committee is pleased to present an energy management workshop in Timmins. The agenda will include new technologies and approaches towards conservation and efficiency, government policies and grant opportunities as well as speakers from OMA member companies, the Ontario Power Authority and the Independent Electricity System Operator. Also included will be an in-depth presentation on the recently completed Compressed Air Sustainable Leak Prevention Program, which was co-funded by the OMA, Ontario's Conservation Bureau and three pilot mine sites.

Who Should Attend

Foreman, engineers, managers, superintendents and any mining staff working in the energy management field.

Date

Oct 3 ~ 12:00 - 3:00 Lunch, underground and surface tours courtesy of Porcupine Joint Venture (capacity limited: note your interest on registration)
~ 4:00 - 6:00 Networking Reception

Oct 4 ~ 8:00 - 4:00 Workshop (detailed agenda to follow)
